EXECUTIVE SUMMARY

Frontend Developer with experience building responsive and user-friendly web applications using React, Angular, JavaScript, HTML, and CSS. Skilled in API integration, state management, and translating UI/UX designs into accessible, high-performance interfaces. Experienced in collaborating with cross-functional teams to deliver scalable solutions and continuously improve application quality. Well-aligned with frontend development roles requiring strong technical expertise, and teamwork.

TECHNICAL SKILLS

- Frontend Technologies: HTML5, CSS3, JavaScript, React, Angular, Tailwind CSS, Bootstrap, Material UI
- State Management: Redux Toolkit
- Web Technologies: API Integration, Responsive Web Design, Cross-Browser Compatibility
- Tools & Platforms: Git, Visual Studio Code

PROFESSIONAL EXPERIENCE

Coherent Pixels Systems, Coimbatore, Tamil Nadu

Sep 2024 – Present

Role: Front-end Developer

Responsibilities:

- Developed responsive web applications using React and JavaScript.
- Built reusable UI components based on UI/UX designs.
- Managed application state using Redux for efficient data flow.
- Integrated REST APIs to enhance application functionality.
- Collaborated with cross-functional teams to develop and troubleshoot features.
- Participated in code reviews to maintain code quality and best practices.
- Continuously learned and adopted modern frontend technologies.

Bluez Infomatic Solutions, Coimbatore, Tamil Nadu

Dec 2023 – Aug 2024

Role: EPUB Developer

Responsibilities:

- Converted manuscripts and PDFs into EPUB formats.
- Structured digital content using HTML, CSS, and XML.
- Developed semantic, responsive layouts for multiple devices.
- Applied CSS styling to improve typography and readability.
- Ensured EPUB compatibility across various reading platforms.
- Performed quality checks and resolved formatting issues.

Appin Technology Lab, Coimbatore, Tamil Nadu

May 2022 – Oct 2022

Role: Web Developer Intern

Responsibilities:

- Developed responsive websites using HTML, CSS, JavaScript, and React.
- Built user-friendly interfaces following modern web standards.
- Implemented responsive layouts for desktop and mobile devices.
- Improved cross-browser compatibility and website performance.
- Participated in testing, debugging, and frontend feature development.
- Collaborated with mentors and team members throughout the internship.

PROJECTS

Enterprise School ERP

Tech Stack: React 18, Redux Toolkit, Material UI, TanStack Query, Axios

- Developed academic modules including Attendance, Exams, Timetable, Homework, and Fee Management.
- Built responsive dashboards, data tables, and validated forms for administrators, teachers, and students.
- Integrated REST APIs with Redux Toolkit and TanStack Query for efficient state and data management.
- Implemented PDF generation for report cards, timetables, and certificates using jsPDF and React PDF.

Delivery Management System

Tech Stack: React, Redux Toolkit, Material UI, Axios

- Developed modules for delivery tracking, order management, and shipment status monitoring.
- Built responsive interfaces for managing deliveries, customers, and operational workflows.
- Integrated REST APIs for real-time data synchronization and streamlined delivery operations.
- Improved user experience by creating reusable components and optimizing application performance.

Enterprise Management System

Tech Stack: Angular, Material UI, ApexCharts

- Developed ERP and HRMS modules for employee onboarding, attendance, finance, and expense management.
- Built interactive dashboards and reports to monitor workforce, projects, and financial data.
- Implemented role-based access features and integrated REST APIs for secure business operations.
